2015 Budget Revenue Estimates

On June 6, the Auditor of State Settlement Department will send County Auditors the budget revenue estimate formulas to be used for the 2015 budgets.

These will be the formulas for counties, cities and towns to estimate state distributions for the last half of 2014 and all of 2015.

When you receive the budget revenue estimate document, please share the information with the county officials who participate in estimating state distribution budget revenues and with the city and town clerk-treasurers/controllers in your county

The state distributions to be covered in the June 6 document are as follows:

- Cigarette Tax and ABC Gallonage Tax distributions to Cities and Towns
- Motor Vehicle Highway, Local Road and Street
- Motor Vehicle Highway Accelerated #1
- Motor Vehicle Highway Accelerated #2
- Commercial Vehicle Excise Tax Distributions to Counties, Cities and Towns

Thank you so much for your warm reception earlier this month at the Auditors' Conference! Dan Bastin, Brenda Alyea and I enjoyed sharing information from the state Auditor's Office with you. I hope you were able to meet Auditor Crouch and spend some time getting to know her.

The conference was a great opportunity for me to meet many county Auditors and begin the long process of placing names with faces. I was very impressed to see how interconnected the work done by the state Auditor's Office, the county Auditor's Offices, State Board of Accounts and the Department of Local Government Finance is. I look forward to working with each of you and continuing to strengthen these relationships.

Below is a brief recap of my presentation from the conference. My contact information is also listed, so please do not hesitate to contact me with any questions.
